STATE COLLEGE OF KENTUCKY,

Lexington, - - Kentucky.

The Agricultural and Mechanical (State College) of Kentucky offers the following courses of study, viz: Agricultural, horticultural, chemical, biological mathematical, physical, normal school, classical, mechanical engineering, electrical engineering, civil engineering, mining engineering, each of which extends over four years and leads to a degree. Post graduate studies are also provided, leading to a master's degree. Each course of study is organized under a separate faculty. The general faculty number nearly fifty professors and instructors.

County appointees receive tuition, room rent in dormitories, fuel and light, and if they remain ten months, traveling expenses.

The laboratories and museums are large, well equipped, comprehensive and modern.

The Legislature appropriated $60,000 for a college home for young women, and $30,000 for drill hall and gymnasium for men. Both buildings are completed and in use. Military tactics and science are fully provided for as required by Congress.

Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the college to supply. Last year the matriculation was 750.

Specialists with the necessary number of assistants have charge of each department of natural science. Summer schools are provided for pedagogy, engineering and instruction in science.

The State College of Kentucky, though bearing hitherto the title of "college," is the only institution in the Commonwealth doing in any proper sense university work.

The completion of the college home for young women provides facilities for good board and lodging. It is equipped with all modern conveniences, including bath rooms and room for physical culture. It is heated by steam and lighted by electricity.

An opportunity is thus afforded to them of a thorough education in classics, modern languages, literature, science, mathematics, logic, metaphysics, history and political economy. No other institution in the State offers advantages for education of women at all comparable to those offered by the State College of Kentucky.

WASHINGTON NOTES.

WASHINGTON, September 26.

Chirman Cowherd, of the Democratic Congressional Committee, in speaking of President Roosevelt's letter of acceptance, said:

"President Roosevelt's letter of acceptance is too long to be reviewed in an interview, nor have I had an opportunity to go over it with sufficient care to attempt that task. Like most of his writings, it is virile and bold, and like most of his writings, it is full of inaccuracies. Few men have the dramatic instinct to a greater degree than President Roosevelt. It is an excellent quality in an author and a very dangerous one in a President. It makes all his writings readable and keeps the country in continual alarm as to what he will do next.

"It takes a bold man to speak of the shiftiness and uncertainty of others who has himself as shifty and uncertain record as Mr. Roosevelt. The Free Trader talking protection and the 'Trust Buster' grown gentle, has little reason to talk of the shiftiness or uncertainty of others.

"Mr. Roosevelt's letter of acceptance is full of assumptions that lack facts to back them. When he says, for instance, 'Do they (the Democrats) object to the way in which the Monroe Doctrine has been strengthened and upheld?' he assumes the very thing which never occurred. The Monroe Doctrine, as every one knows, has been weakened by Mr. Roosevelt's attempted definition and limitation of it. When he says that 'never before has this Doctrine been acquiesced in abroad as it is now' he should qualify it by stating that it is his Monroe Doctrine that is acquiesced in and not the Monroe Doctrine as it was known before he amended it. His construction has been acquiesced in abroad because it was in conformity with foreign interests.

"He has the temerity also to ask whether we objected to his action on the petition of the American citizens against the Kishinef massacre. In the light of Mr. Roosevelt's complete back-down on his proposed forwarding of that petition to the Czar, this statement is amusing.

"Mr. Roosevelt also says that the 'Democrats assert their belief in reciprocity, but their action on the Cuban Treaty does not carry out their assertion.' This is a plain attempt to mis-state the facts of history. Mr. Roosevelt knows that his Cuban policy could never have been put into execution except by the unanimous aid of the Democratic party. He knows that it was fought, and bitterly fought, by a large and influential portion of the Republican party, both in the House and Senate. It is true the Democrats desired to take off the protection to the Sugar Trusts; it is true they opposed the clause in the Cuban treaty which practically prohibited reciprocity towards any other country. But though they could not get their ideas into the treaty, they accepted it as the best they could do and stood by the policy of reciprocity.

"Mr. Roosevelt's talk of liberality to the veterans by his executive order and criticism of the Democrats comes dangerously near being the plea of a small lawyer in a justice's court. The Democratic policy was shown when the party offered to make his illegal order law by putting it on the Statute book, thus securing to the veteran that which he holds now only by the precarious tenure of an executive order.

"On the question of expenditures, the President announces that the expenses of the Government have not increased, and then explains how they have increased, and in this explanation he includes the purchase of the Panama Canal and the cost of irrigating arid lands. Neither of these are included in the appropriation for this year, nor in the statements issued showing the expenses under his administration, which were in the four years past two hundred and eleven million dollars more than under McKinley, although he carried on a war with Spain, and more than eight hundred million dollars more than under Mr. Cleveland during his last term.

"Mr. Roosevelt has no idea of the constitutional limitations on his power. His letter shows conclusively that when he thinks a thing ought to be done, he also thinks he ought to do it, regardless of whether the law has given that power into his hands or not.

"Taken as a whole, the letter is a bold, defiant expression of the 'Big Stick.' This administration suits the President, and he thinks it suits the people, and proposes to stand by it. I admire his boldness, but I question his judgment." CHARLES A. EDWARDS.

ABOUT PEOPLE YOU KNOW.

[From the Jackson Hustler.]

Eli Smith, of Perry county is alleged to have been shot and killed by Powell Logan, his brother-in-law. A woman is in the case.

Miss Carrie Rose, a pretty young lady from Hazel Green, is the guest of her friend, Miss Kate Sewell, daughter of Hon. G. W. Sewell.

James Gambill, son of Squire W. E. Gambill, has been appointed as the successor of W. B. Sledd as railroad mail clerk between Jackson and Lexington.

Kelly Kash, the able aide de reportorial of the Hustler, and Grannis Bach, son of Judge J. J. C. Bach, returned from the World's Fair Monday, much delighted with the big show.

Master Edward Cox, aged 8, was taken to the Masonic Home, in Louisville, to be placed in school there. J. S. Head, the Cashier of the Jackson Deposit Bank, effected the admission, and accompanied the youngster to his new home.

James Drake, of this city, met with a painful accident some days ago, while squirrel hunting. He was using an old-fashioned squirrel rifle, and when the cap exploded a part of it entered the eye ball, destroying the sight temporarily. His physician, Dr. Offutt, thinks that by an operation and the use of glasses his sight may be restored.

What is Life?

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in Constipation, Headache or Liver trouble. Dr. King's New Life Pills quickly re adjusts this. It's gentle, yet thorough. Only 25c., at all druggists.

The Gas Will Come.

There is now no longer any question about the introduction of gas into our town for light and fuel. The Hazel Green Oil and Gas Co. yesterday made an order for all the piping necessary to lay the mains and make connection with the dwellings, stores, &c. The order includes everything necessary, and all the consumer will have to do is to arrange with some one to fit up his premises, and the pipe will be sold at a nominal profit. In buying in such large quantities the company can afford to and will sell it cheaper than the individual could buy it elsewhere. The introduction of this new fuel and light will make Hazel Green the most desirable place for dwelling that can be found in the State—no dirt, dust, soot, or anything of the kind to contend with—and we confidently anticipate a great increase in the population within the next 12 months.

FOR VICE PRESIDENT,

HENRY C. DAVIS,

OF WEST VIRGINIA.

FOR CONGRESS, 10th DISTRICT,

HON. FRANK A. HOPKINS,

OF FLOYD COUNTY.

CHARLES E. HARRICHT, erstwhile a valued adjunct of THE HERALD, is now co-editor and part owner of "The Olio," a sprightly little eight-page paper at Equality, Ill, and it does us pleasure to notice his prosperity.

THE complexion of the next House of Representatives may depend upon the vote in Kentucky. There is no disaffection in any district and with the exception of the Eleventh District, the entire delegation should be Democratic.

CHAIRMAN ERNST's threat to put every rascally Republican politician in the 11th District in the penitentiary will not, if carried into execution, leave enough voters in Hunter's bailiwick to stand up and be counted.

Humors Come to the Surface

In pimples and other eruptions, but don't run themselves all off that way. They mostly remain in the system—that's bad. Hood's Sarsaparilla removes them, wards off danger makes good health sure. Take it.

OLLIE JAMES will be on the stump for the Democrats at the earliest possible moment. No other speaker has more admirers than the Herculean Congressman from the First District. His splendid presence is in itself a favorable introduction, and when he adds to that real merit as a speaker with the spirit and fire of a true orator, he wins his hearers without effort. The Campaign Committee will do its utmost to meet the demands for Congressman James's services, but if he were like the fabled gentleman of old, three men in one, he would not be able to answer all the requests that have been made for him.

The Kind You Have Always Bought

TOM WATSON has written a history that will live. He is also the author of a novel that ranks with Uncle Tom s Cabin as a study of race conditions. He is a many sided man and interesting in everything he does, but when he becomes a stool-pigeon of the Republicans, and while posing as a candidate for President plays into the hands of Roosevelt, the avowed enemy of the South, he not only makes his cause ridiculous, but destroys whatever character or prestige he may have gained from his former honorable affiliation.

GOV. BECKHAM has placed his time and services at the disposal of the State Campaign Committee, and from every section has come a demand for his presence. There was a time when the Governor was not a great orator, but he has developed into one of the most earnest and forcible speakers in the party. Lacking some of the graces and enthusiasm of the real spellbinder, he has, however, the faculty of putting in a plain, straightforward way the things that pleople want to know about public affairs. Not only as an exponent of his admirable administration, but as a defender and expounder of Democratic doctrine he will be heard with great interest throughout the commonwealth.

The Jackson Gun Club had a 25-shot score at their grounds in that city Saturday week, in which nine were contestants. Our former townsman, C. B. Rose, scored 23, George Spencer going 24, one above him, and Mat Spencer, 28, one below. Pretty good shooting that—23 out of a possible 25—and if Curt keeps on improving he will soon be a rival of the famous Dr. Carver.

There was not less than 1,000 people present for the occasion, and "dinner on the ground" for all the multitude. It was one of the largest funerals ever seen in this county, the crowd testifying the esteem in which the deceased were held.

Will Hobbs, who shot and killed his half brother, James Lacy, on Gillmore Creek, last spring a year ago about the treatment of a horse they were working, was tried in the Wolfe Circuit Court on Monday, adjudged a lunatic, and sent to the Eastern Asylum at Lexington. Apropos, it is rumored, that Hobbs has always said that if he ever got in trouble of any kind he would "play crazy" and escape punishment. But there may be no truth in it.

Shotguns on Spring Fork.

A free-for-all carousal occurred on Spring Fork day before yesterday, and it is said by those who know the details that whisky and bullets were active principals, several parties to the affray narrowly escaping instant death. It appears that one Alexander Clemons, who recently lost his wife, is the greatest sufferer, having received wounds in his left hip from a shotgun which will make him a cripple for life if they do not prove fatal. By the death of his wife he became the owner of her property, and, without warrant of any legal process whatever her relatives, the Wiremans, proceeded to sell the effects left by his wife. On the day appointed for the sale there was a gathering of prospective buyers, and when the sale opened the ball opened also, the latter being given tremendous impetus by the liberal distribution of old "red eye," which was of the devil's own brew and quality. Clemons, supported by several friends, stood his ground, and attempted to prevent the sale of his property. A fusilade came from both sides simultaneously, the Wiremans firing first, it is said, after which it was discovered that Clemons had been seriously wounded, and he lay on the ground perfectly helpless, while the friends on his side could not be found. It is thought that some of them are wounded also. The place where the fight occurred is twenty miles from Jackson.—Jackson Hustler.

Hon. Johathan Quicksall was in town yesterday, and said to THE HERALD man that he is improving in health slightly.

Sylvester Adams, who shot and killed his brother, John Adams, on Stillwater, a few months ago, was arraigned for trial yesterday in the Wolfe Circuit Court, but at this writing the verdict of the jury has not been returned. However, it is generally believed that he will get a life sentence or be hung.

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made by F. J. CHENEY & Co., Toledo, O. Testimonials free.

John Will Taulbee, candidate for re-election as Superintendent of Schools, was in town yesterday and told "our man about town" that he had just finished visiting the schools of the county, which he found in good condition generally, and incidentally remarked that there are 3,766 children of school age in the county, all white except 61.

Prof. Felix E. Schelling, head of the English Department in the University of Pennsylvania, has done in Lippincott's Magazine for October a much-needed public service. He has made known, with authority, the sources of the "Moralites" of which "Everyman" is an example, and thus furnished intelligence with which to approach this and other mediæval plays which will follow in its wake. The paper is well illustrated.

Trial bottles free at all druggists.

The Oil Fields.

The prospect for better prices for oil is having the effect of increasing the activity in the principal oil developments. All the older fields furnished new producers last week, while good results were obtained in one or two of the newer fields. Strikes were made in the Cumberland, Wayne, Knox and Wolfe county fields.

The attention of operators is being turned to the deep oil fields in the upper developments, especially to Wolfe county, which is being put in connection with the market. During the past few months tests have been made of some deep wells drilled in that county which show up with a good yield at a depth of over 1,000 feet. At this depth a light-grade oil is encountered which will command a good price, but which has been slow in being developed on account of the expense of drilling to that depth. Several new wells are now going down in Wolfe county, and lately the Kentucky Coal and Oil Company finished up a well good for twenty-five barrels per day.—Jackson News.

Bucklen's Arnica Salve

Letter From Former Resident.

EDITOR HERALD:—Allow me to express my sincere thanks through the columns of your valuable paper to some unknown friend for a copy of THE HERALD, which I appreciate. It is like getting a letter from my dear old Kentucky home. This is a good farming country; there are no hills and cliffs, and a plentiful supply of good water—limestone, freestone and sulphur. I will now close, hoping that my letter will not find its way into the waste basket.

If so, take the Lexington and Eastern from Jackson, and note the rates below, which are good between Jackson and St. Lous: Season tickets, good until December 15th, 1904, $21.40; sixty-day tickets, $17.85; fifteen-day tickets, $15.45.

Taxpayers, Take Notice.

The taxpayers of Stillwater, Clifty and Hazel Green precincts are hereby warned that 5 per cent. penalty will soon be in operation, and if they wish to save it they had better come in and pay up. Delay means a loss to you, so come a-running. CHARLES M. ROSE.
tf. Deputy Sheriff.

The acreage of wheat in Wolfe county this coming year should be ten-fold more than it has been in the past decade, or in fact more than it ever has been, for the farmers can now certainly see that it is a ruinous policy to buy at high prices what they can themselves produce. And if they raise enough of the cereal they can dispose of the surplus so as to practically make their flour clear. Any man who doubts our assertion can easily prove its truth by a little figuring, and we hope every one will do so.

J. TAYLOR DAY SUCCESSFUL.

Induced Dr. Howard Company to Make Special Price.

After a great deal of effort and correspondence, J. Taylor Day, the popular druggist, has succeeded in getting the Dr. Howard Co. to make a special half-price introductory offer on the regular fifty cent size of their celebrated specific for the cure of constipation and dyspepsia.

This medicine is a recent discovery for the cure of all diseases of the stomach and bowels. It not only gives quick relief, but it makes permanent cures.

Dr. Howard's specific has been so successful in curing constipation, dyspepsia and all liver troubles, that J. Taylor Day is willing to return the price paid in every case where it does not give relief.

The old-fashioned idea of dosing with mineral waters, cathartic pills or harsh purgatives will soon be a thing of the past. The best physicians are prescribing Dr. Howard's specific because it really gives the desired results and on account of the small and pleasant dose that is needed.

Headaches, coated tongue, dizziness, gas on stomach, specks before the eyes, constipation, and all forms of liver and stomach trouble are soon cured by this scientific medicine.

So great is the demand for this specific that J. Taylor Day has been able to secure only a limited supply, and every one who is troubled with dyspepsia, constipation or liver trouble should call upon him at once, or send 25 cents, and get sixty doses of the best medicide ever made, on this special half-price offer, with his personal guarantee to refund the money if it does not cure.

We know the meaning of words and will do as we say. We claim to be the lowest-priced Whiskey House and the Largest Mail Order Whiskey Concern in the South. All the North Carolina Whiskey we sell is good—there's no bad. People here wouldn't adulterate if they knew how—they are too honest! Most whiskey sellers are noted for mixing, blending and watering. We sell more genuine old whiskey and less water than any known competitor. "Casper's 11 Year Old" Whiskey is a Liquid Joy! It's made by honest people in the mountains of North Carolina, in old-style copper stills, just as it was made by our grandfathers. First-rate whiskey is sold at $5.00 to $6.00 per gallon, but it's not any better than "Casper's 11 Year Old." It must please or we will buy it back. We have a capital of $500,000, and the Peoples' National Bank and the Piedmont Savings Bank of this city will tell you our word is good. To introduce this old, honest whiskey, we offer four Full Quarts of "Casper's 11 Year Old"—two sample bottles, one 11, one 18 year old—a corkscrew and a drinking glass—all for $2.95. If $5.90 is sent we will double the above and put in free One Full Quart Extra. We have some of this whiskey only 7 years old, and will send five-gallon keg for $10 or will furnish twenty full quart bottles on receipt of $11 and give free corkscrews, drinking glasses and samples, making this whiskey cost less than $2.20 per gallon delivered. We ship in plain boxes with no marks to indicate contents, and Prepay all Express. Buyers West of Texas, Kansas, Nebraska and Dakota must add 20 cents per quart extra.
